

Product Group MFSSV

Anti vibration machine feet made of stainless steel with vulcanized EPDM- rubber pad

Material

- Base body: AISI 304 (A2)
- Rubber: EPDM 80 Shore, vulcanized

Product information

- The machine foot is particularly suitable for solving vibration problems during the machine processing.
- The foot is made of pressed moulded sheet metal. The vulcanized rubber is firmly attached to the sheet. This prevents the penetration of bacteria and ensures a high standard of hygiene.
- Die abgerundete Form und der verdeckte Übergang vom Fuß zum Gewinde erleichtern die Reinigung.
- EPDM meets the USDA standards for rubber products.
- The load capacity of the screw (buckling length!) may be less than indicated in the table.
- Food industry

Product options on inquiry

- Machine foot made of stainless steel AISI 316 (A4)
